WORCESTER , Mass.--(BUSINESS WIRE)--The *Lord & Benoit Report: NAIC Annual Financial Reporting Model Regulation* formerly called the Model Audit Rule (MAR) was released today. The Report helps non-public insurance companies to identify control weaknesses, achieve transparency and fraud prevention, and restore public confidence by raising their level of self-governance with that of the Public Company Accounting Reform and Investor Protection Act, otherwise known as the Sarbanes-Oxley Act (SOX).

The 42-page document contains a summary of the internal control reports of 415 publicly-held insurance companies, focusing on those companies with material weaknesses in internal controls over financial reporting in years ending 2004-2008. "Since the new NAIC Model Regulation requires non-public insurance companies to include certain provisions of SOX Section 404," says Robert Benoit, President & Director of Research, "this free Report can be extremely valuable to executives at non-public insurance companies who are interested in good corporate governance. Why should they learn everything the hard way, when they can learn from the real-life experiences of hundreds of their peers over a recent five-year period?"

Lord & Benoit is a full-service internal controls consulting firm (SOX consulting, NAIC, FDIC, SOX IT) with clients worldwide. The Report was generated using AuditAnalytics. To download a free copy of the Lord & Benoit NAIC Report, please visit [www.Section404.org](http://www.Section404.org).
