Lord & Benoit Offers Free June 2 Webinar on New National Association of Insurance Commissioners NAIC Model Regulation

2009 JUN 5 - (VerticalNews.com) -- On Tuesday, June 2 from 2:00 to 3:00 EDT, Lord & Benoit will host a free webinar, "Untangling the Insurance NAIC Annual Financial Reporting Model Regulation" to help publicly-held insurance companies to achieve transparency, prevent fraud, and restore public confidence by raising their levels of self-governance. The new NAIC Model Regulation is set to be adopted in various forms by State insurance commissions soon.

Presenter Bob Benoit, President & Director of SOX Research, will review the revised Model Audit Rule, best practice corporate governance standards and elements. He will also discuss recent developments in COSO guidance, such as concepts of risks; multiple location and scope limitation considerations; financial reporting risks (GAAP, estimates, disclosures); entity-level controls (COSO, management overrides); IT general controls; evidence of operating effectiveness of ICFR; and the evaluation of control deficiencies and material weaknesses. As a bonus, Benoit will share the actual material weaknesses reported by all publicly-held insurance companies since the Sarbanes-Oxley Act was initiated in 2004.

This webinar is geared for insurance company officers and executives in finance, legal, and IT; insurance company directors and audit committees; state insurance regulators; CPAs and attorneys who work in and for the insurance industry.
